Operating Model

Our Operating Model is the foundation for how we plan and execute each task. It provides the link to P101 and our FutureSmart Mining™ programme and it's the glue to everything we do. Our focus on operating stability and predictability supports safe, reliable performance and continuous improvement.

P101

P101 is our transformational asset productivity programme, systematically improving the performance of our most value-driving mining processes and other work to set new levels of benchmark performance. It sets the context for our progress and is critical to enable the delivery of FutureSmart Mining™.
